

Homework & Reflection - Week 4

Reflect and write down the answers to the following questions:

1. What have you learned this week?
2. How do you conduct a research project?
3. What factors are important in conducting a successful research project?
4. How do you succeed as a scientist?
5. What are the responsibilities you have as a scientist? Moral/ethics?
6. What benefits do you see in participating in research activities?
