

## **Homework & Reflection - Week 1**

Think and write down the answers to the following questions:

1. What have you learned this week?
2. What are the major differences between research designs?
3. Which research design has the highest impact in the scientific world and why?
4. Which research design did you find easiest and hardest to read? Why?
5. Which research design is the easiest and hardest to conduct? Why?
6. What type of research designs would you like to conduct in the future? Why?
